

# NEW-YORK DAILY TRIBUNE, TUESDAY, JUNE 26, 1866.

## POLITICAL.

**PENNSYLVANIA.**—The Clymer Copperheads are making strenuous efforts to get up another Soldier's Convention. The demand for able-bodied Copperhead soldiers is altogether disproportionate to the supply, and we hear that higher bounties are offered than Democratic politicians were ever willing to give during the war. In the same State the Republicans of Snyder County have nominated George F. Miller for Congress, and the Confederates of the Scranton District will support D. S. Merrill of Cambria County, the owner of several large forges near Johnstown, and a well-known and practical student of the iron interests. Hon. John Cervola has received a majority of votes in the primary election in West Moreland County. The Washington County Unionists have nominated Geo. V. Lawrence for Congress.

**FOREIGN MISCELLANY.**

**THE BREAST-PLATE REVIVED.**—A letter from Italy says that breast-plates are being revived as in the glorious times of King of the Romans, and the Pope, and the Emperor, and the Queen of Sicily. Penitentiary, has succeeded in devising a breast-plate for soldiers, which scarcely weighs three English pounds. After repeated experiments, practised on it with heavy cavalry, it was found to be perfectly impervious both to bullets and sabres.

**THE BREAST-PLATE.**—The most striking peculiarity of this breast-plate, which can in no way impede the movements of a soldier, is that the metal is riveted to the leather, and the leather to the plate, so that it will not slip off.

**THE BREAST-PLATE.**—The Minister for War and several senior officers, being present during the experiments, were highly satisfied with its practical usefulness.
